

September 2015

Dear Educator:

With the school year underway, could you make good use of some extra funds to improve your teaching? Are you toying with a creative project that is slightly beyond your means? Are you hoping to take a class or workshop to enhance your teaching skills and enrich your classroom?

Delta Kappa Gamma is an association of key female educators. Our local chapter would like to possibly help support your ideas for your classroom or endeavors. We have grant money available for first – through – third year female teachers. An applications form is enclosed. Please note the October 31 deadline.

A committee will review the applications, taking into account creativity, benefit to students, and student engagement. All applicants will be notified once the decisions are made. Should your application be selected you would need to spend the money before April 30 and have the receipts turned in. We will invite you to our May DKG meeting to report briefly to our members on the success of your “adventure.”

We look forward to reading and reviewing your application and hearing about what great activities await the youth of Fayette County.

Best Wishes,

The Ladies of Delta Kappa Gamma
